## Frontend Developer

marben.taguinod@gmail.com | +63 945 993 9496 | [linkedin.com/in/marben-taguinod-b5b083424](https://www.linkedin.com/in/marben-taguinod-b5b083424) | [github.com/skidl0ck](https://github.com/skidl0ck) | [skidl0ck.github.io](https://skidl0ck.github.io)

Frontend Developer targeting full-time frontend roles. Designed and built Sikaty, a production freelance-marketplace platform, end to end using Next.js, TypeScript, and Tailwind CSS — including real-time WebSocket chat, Stripe/PayPal checkout flows, and a multi-step seller onboarding system. Backed by nearly a decade of hands-on IT experience (technical support, infrastructure, custom application development) that translates into strong debugging instincts, reliability, and self-directed learning.

## TECHNICAL SKILLS

|                              |                                                                                   |
|------------------------------|-----------------------------------------------------------------------------------|
| Frontend                     | Next.js (App Router), TypeScript, JavaScript, Tailwind CSS, React Query, HTML/CSS |
| Payments Integration         | Stripe Elements, PayPal Checkout                                                  |
| Backend & Realtime (context) | Django REST Framework, Django Channels (WebSockets), REST API integration         |
| Tools & Other                | Git/GitHub, Visual Basic .NET, Excel (Pivot Tables), LAN/network setup            |

## FEATURED PROJECT

### Sikaty – Frontend Developer

Mar 2025 – Jul 2026

UK-registered freelance marketplace platform · Personal / independent build

- Built the entire frontend of a two-sided freelance marketplace using Next.js, TypeScript, and Tailwind CSS, covering discovery, checkout, messaging, and account management.
- Implemented real-time chat with a dual-channel WebSocket architecture (Django Channels), keeping notifications and active conversations in sync.
- Built subscription and one-off checkout flows integrating Stripe Elements and PayPal, including debugging and resolving live payment failures.
- Designed a multi-step seller onboarding wizard with live validation, unsaved-changes tracking, and profile-strength scoring.
- Migrated the platform's legacy Bootstrap/HTML templates to a modern Next.js/TypeScript/Tailwind stack.

## WORK EXPERIENCE

### IT Staff

Feb 2020 – Apr 2025

RAJ Real Estate

- Installed CCTV systems and configured LAN networking across 7 PC units.
- Built a desktop application in Visual Basic .NET to automate manual business processes, including expense tracking, full-payment and installment transactions, and lot management.

### IT Tech Support

Feb 2018 – Feb 2020

One Call Solutions (BPO)

- Operated and maintained ViciDial for a live call center, monitoring 50+ PC units to keep performance at peak levels.
- Installed CCTV, set up the network, and ran cabling for 50+ PC units.
- Built a single-page company website used for introducing the business and recruiting call center agents.
- Helped sustain operations through the early pandemic disruption before the company's closure in February 2020.

## EARLIER EXPERIENCE

### Stock Manager

Sep 2017 – Feb 2018

Concorde Car Accessories

Managed inventory with FIFO stock rotation using the company's desktop application.

### IT Staff

Apr 2016 – May 2017

Value Chain Solutions Inc.

Processed agent orders via the company's ordering website and consolidated data using Excel pivot tables.

## EDUCATION

### BS in Information Technology

2008 – 2012

Cagayan State University
